

PUBLIC LEDGER

SIXTH YEAR.

MAYSVILLE, KY., MONDAY, OCTOBER 4, 1897.

ONE CENT.

Purely Business!

The columns of a newspaper represent a cash value. No publisher can afford to give advertising "notices" free any more than a merchant can lose over his counter free gifts of dry goods or shoes. A newspaper is a legitimate business concern. Its columns are its stock in trade, and advertisements should be paid for, no matter in what part of the paper they appear.

HECHINGER & CO.'S

FALL STYLES

Are Shown in Scores of Handsome New Cuts!

Weavers' wits were never more versatile in producing attractive toon effects. Skill in wholesale tailoring has made marvelous progress in recent years. No better evidence is needed than a critical inspection of ready-to-wear clothing made for them. There is a nicety of detail, a carelessness of finish, a symmetry of cut that denotes master minds and master hands. This is not only with reference to their clothing, but also to their other different departments. Nowhere will you see so handsome a display of gentlemen's furnishing goods, fine shirts, hats, collars and ties as Hechinger & Co. show.

Have You Looked at Their Stock of Smith & Stoughton

SHOES?

Recognizing the needs of their patrons, Hechinger & Co. arranged with Messrs. Smith & Stoughton, one of the most prominent manufacturers of fine Men's Shoes in the country, to sell their goods. See their window display of them and you will not wonder that although but thirty days elapsed since the first shipment arrived they are already doing the Men's Fine Shoe business of the town.

DIED IN THE NIGHT.

Mrs. Sarah Elizabeth Ballenger Found Cold in Death Early This Morning.

Mrs. Sarah E. Ballenger, wife of Mr. J. M. C. Ballenger, had been ill with malaria fever some ten days, but yesterday her condition was thought to be much better.

When the family retired last night there were no unusual symptoms, and her eldest daughter, who was also ill, occupied the bed with Mrs. Ballenger.

In the night the daughter called her father to lower the window, as her mother's hand felt cold; but she was thought to be asleep—getting the rest she so much needed.

Early this morning the awful discovery was made that she was dead, the body being rigid, showing that her life had gone out several hours before.

Deceased was a daughter of Mr. Joseph Varian of Winchester, O., and would have been 40 years of age in December.

Besides a devoted husband she leaves five children—two sons and four daughters—to mourn their untimely loss.

The sympathy of the entire community will go out to the stricken family.

Arrangements for the funeral had not been perfected when THE LEDGER went to press.

KICKERS' CORNER

If any one at anytime for any reason has any cause to "kick" in any way at anything of any kind, here's the place to say his say. The door is open—write right in and help yourself, free gratis and for nothing—but don't make your "kicks" too long—it's the short, quick pillow that counts—and cut.

THE name of the kicker must accompany the kick, or it'll be kicked into the outer-bush.

The Kicker a day or so since remarked that the city authorities were trying to make a good gutter out of the bad gutter that had only a short time before replaced a good gutter on the North side of Second street between Court and Sutton.

The work has progressed far enough to warrant the Kicker in naming the new production.

It's a Guttero!

Now, a Guttero is a gutterette whose plane is higher in some places than it is in others, and it belongs more especially to the gutter that is the offshoot—or shoot-off—of the unvarying theodolite eye of a City Councilman rather than of Billy Pelham's Transit Compass.

That the Guttero in question is higher at its starting point than the alley or the sidewalk is a matter that carries no congenial aqua; for Eugene Robinson has arranged to have a man on the ground every time it rains whose business and duty there will be to lift the water off the sidewalk and out of the alley and dump it into the new Guttero-ette.

The social that was to have been given to the Epworth League of the M. E. Church at the home of Mr. John Walsh will take place at the home of Miss Grace Bierlower on West Fourth street this evening at 7 o'clock.

Miss Maggie Parker, aged 9 years, daughter of Mrs. Mary Parker of Prospect street, died yesterday afternoon at 1 o'clock of consumption. Burial this afternoon at 4 o'clock at the Maysville Cemetery.

WHAT A HARVEST.

The Pickpockets Got in Their Work Most Beautifully at Augusta.

A great many people went to Augusta's Centennial Saturday, and some are glad while some are sorry.

The glad ones are the lucky fellows who enjoyed the things that were free, and the sorry ones are those who were victimized by the horde of Cincinnati thieves that were present.

THE LEDGER has secured a partial list, but does not vouch for its absolute correctness, either as to names or amounts.

Charles Kurts, near Germantown, was robbed of \$100; he went to bank and got \$75 more, and was soon relieved of that also.

Leslie Peddicord, Mason county, \$217. George Barkley, Augusta, \$15.

Samuel Isako, California, Ky., \$17 and a watch.

George Myers, near Germantown, \$72. Mr. Broadwell, Wellsburg, \$200.

Lotha Smith, Augusta, \$105.

John Zech of this city, pocketbook containing a couple of German keepsake coins and a railroad ticket.

And there may have been others.

The good people of Augusta, however, are in no wise to blame for these happenings. They had advertised everything free, and there was no need for visitors to take their bank accounts with them.

ANTI-CIVIL SERVICE.

The National Republican League Supports Senator Hanna.

LETTER WITH THE RIGHT RING.

A Washington special says the National Republican Anti-Civil Service League silenced all stories to the effect that the League was opposed to the candidacy of Senator Hanna by adopting strong resolutions denouncing the party telegraphed all over the country and published especially in Ohio papers that the League was opposing the election of Senator Hanna.

The committee adopted the following resolution:

"Resolved, That this League declares itself heartily in favor of the election of Senator Hanna to the United States Senate from Ohio, and pledges itself to do everything in its power to secure his election."

Among the communications received was the following from Representative Charles H. Grosvenor:

"ATLANTA, O., September 23d, 1897. "W. D. Lester, Secretary—Dear Sir: I think you are on the right track. Responses are coming to me from every direction. I send you 1,000 copies of my speech. An Anti-Civil Service party has been started in Indianapolis, and there is every indication of an organized movement to defeat any Congressman for nomination who will not pledge himself in this behalf."

KENTUCKY REPUBLICAN PLATFORM.
Adopted at Louisville, Aug. 10th, 1907.

Resolved, by the Republican party in Con-
vention assembled:

First—That we reaffirm the principles of the
Platform adopted as set forth in the platform
adopted by it at St. Louis in 1904.

Second—That we endorse the Republican
National and State Administration, and
especially commend the skill and competence
of its officials in their efforts to suppress mob
violence and to preserve the financial credit of
the state.

Third—We commend the action of the
representatives of the Republican party in the
passage of a Tariff bill which will raise revenue
sufficient to support the Government,
prevent the issue of interest-bearing bonds,
protect American labor and maintain the
National credit.

Fourth—We are opposed to a system of Civil
Service that builds up an official class with
practically a life tenure in almost all branches
of the public service, and we demand that the
Civil Service Law be modified so as to limit the
terms of appointment to four years, with the
privilege of reappointment or promotion, subject
to such restrictions as will secure competent
officials and give to every section of the country
its proper proportion of them.

Fifth—We heartily sympathize with the
struggling people of Cuba in their efforts to
secure liberty and independence.

Sixth—That we recommend to the people the
adoption of the Constitutional amendment
submitted by the last Legislature, allowing all
cities and towns the privilege of regulating
under legislative supervision the method of
levying the taxes they impose on themselves
for city and town expenses.

Seventh—We favor the passage of a law that
will protect the laborers of Kentucky from the
competition of convict labor, and, if necessary
to accomplish said purpose, an amendment to
the Constitution permitting such legislation.

"The best way to get rid of a bad
law is to enforce it."—General Grant.

Therefore THE LEDGER favors the
rigid enforcement of the Civil Service
Law.

CHARLES JONES should keep a letter-
copying press. A politician who
neglects to keep copies of his letters is
sure to get in trouble.

Mr. Bryan can now visit Ohio with
safety if he desires, and the compensa-
tion is sufficient to warrant. Ex-Con-
gressman TOWNE of Minnesota, his
rival for the Presidential nomination in
1908, has, according to the latest ad-
vice from Democratic headquarters,
been ordered out of the state by the
manager of the Ohio Democratic cam-
paign.

It is not surprising that the silver
campaigning in Ohio was a failure, in
view of the fact that the farmers in the
United States exported in August more
of their products than they exported in
the corresponding month of the two
preceding years combined.

CHAIRMAN JONES of the late Popu-
lar Committee has not issued an
announcement with reference to his
attitude on the state platform as re-
gards silver for as much as 48 hours.
Does Mr. JONES begin to realize that he
is making himself the laughing stock
of the politicians of the country?

It looks like all the United States
Courts were in line against the Civil
Service Law. This may be due to the
fact that the Courts are composed of
American citizens. What a great thing
it would be if the main points of what
there is left of the law could be brought
to issue and knocked out by the Supreme
Court.

IS THERE a combination between
O'MYERS and BRYAN against ex-Con-
gressman TOWNE? Mr. TOWNE is
understood to be Mr. BRYAN's chief
rival for the Presidential nomination in
1908, and it is suggested that O'MYERS's
action in ordering TOWNE out of the
stump in Ohio was intended to weaken
his candidacy as against BRYAN.

These figures show the number and
value of cattle brought into this country
during two periods—the first four
years under Protection and the last four
years under Free-trade:

Year.	Number.	Value.
1901.....	9,052	\$ 34,362
1902.....	2,039	30,899
1903.....	3,119	24,528
1904.....	1,280	13,335
Protection Average, 4,023		\$28,013
1905.....	19,020	148,020
1906.....	27,091	198,478
1907.....	29,713	248,647
Free-trade Average, 25,274		\$181,678

This final comparison of the results
of Protection and Free-trade will be of
interest to those American farmers who
are cattle raisers. During each year of
the Democratic Tariff there were nearly
257,000 head of foreign cattle shipped
here from Mexico and Canada, and the
money sent out of this country to pay
for the foreign cattle averaged \$1,575,
670 a year. Hereafter, under Protection,
this money will be kept at home for
circulation among American farmers.

NOTHING further is heard about that
proposed retaliatory legislation in Ar-
gentine with reference to the United
States and her imports into that coun-
try. Nor is there any realization of the
great commercial troubles between the
United States and other foreign
countries which the Free-traders were
predicting as a result of the new Tar-
iff. Sixty days have passed since it
went into operation and nothing has
happened to prevent the steady inflow
and outflow of commerce between the
two Nations. The fact that the United
States proves the best market with most
of these foreign countries will prevent
their taking any action which would
disturb their own business relations or
reduce the market which their people
have in the United States for their pro-
ductions.

Judge Cantrell at Frankfort holds that

The Public Health at White Oak, Ben-
nett's Pulleton, South Portsmouth,
Springville and Indian Run have been
closed on the account of the epidemic of
diphtheria that prevails in those places.

A few weeks ago the editor was taken
with a very severe cold that could not
be in a most miserable condition. It
was undoubtedly a bad case of la grippe
and recognizing it as dangerous he took
immediate steps to bring about a speedy
cure. From the advertisement of Cham-
berlain's Cough Remedy and the many
good recommendations included therein,
we concluded to make a first trial of the
medicine. To say that it was satisfactory
in its results is putting it very mildly.
Indeed, it acted like magic and the re-
sult was a speedy and permanent cure.
We have no hesitancy in recommending
the excellent Cough Remedy to anyone
afflicted with a cough or cold in any form.

STRYCHNINE
Placed in the Breakfast Coffee
By the Mother.

The Woman and Four of Her Seven
Children Are Dead.

Fifth Child Dying and the Sixth Victim Still
—An Older Son Because Alarmed Over
a Remark Made by the Mother and
Left the Breakfast Table.

OMAHA, Neb., Oct. 4.—A special to
the Bee from Schuyler, Neb., says:
During Sunday forenoon Frank
Steinard came hastily in from Shell
Creek, twenty miles north, to
summon a physician to the home of
Frank Davis, where he said the whole
family had been poisoned. Dr. Sixta
hastened out and found four of the
seven children in the family and their
mother dead, a fifth child in a
dying condition, and a sixth child
sick. Mr. Davis and his oldest son
went away early in the morning,
leaving before the rest of the family
breakfasted. When the meal was pre-
pared all sat down and early in the
course of the meal Mrs. Davis made
some remark as to the cost of the
breakfast and we'll all go together.

An older son's mind was affected
by the remark, and he thought
that he did not approve his ap-
petite. A daughter, younger than the
son, after drinking about a half cup
of coffee became ill and vomited. The
rest of the family continued the morn-
ing meal, although the children were
very sick and the mother was in a
bad state. Strychnine had been put
into the coffee which soon showed
its effects when those not prostrated
spread the alarm, but not soon enough
to avoid the fatal effects noted.

COLUMBUS TEAM
Wins Another Game From Indianapolis
in the Cup Series.

COLUMBUS, O., Oct. 4.—The Indianap-
olis team confidently expected to win
Sunday's game and end the cup series,
but they were disappointed. There was
not a time during the game when
they had even a chance to win. Evans
for Columbus pitched effectively, while
Foreman was his hard-luck opponent,
rapping out three triples in the fifth
inning. Kahoe's home run in the sev-
enth was only run by the victors.
The game was marked by snappy fielding.
Mert's eight put-outs in center field
were the feature of the game. The
catches being on the sensational
open. Helen's work at short was also
brilliant. Score:
Indians..... 1 2 3 4 5 6 7 8 9 R R E
Columbus..... 1 2 3 4 5 6 7 8 9 R R E
Indians..... 0 0 0 0 0 1 1 1 1 0 1 1 1
Batteries—Evans and Buckley; Foreman and
Kahoe.

The Indianapolis and Columbus
players held a conference Sunday night
and decided to play out the cup
series in the Indianapolis market
to play any more games except on
their own grounds. The players of
both teams were anxious to return to
their respective homes, and the Colum-
bus team agreed to give Indianapolis
the cup, the Indians having won four
out of the five games played. Each
player received about \$75 over ex-
penses in the cup series out of the re-
ceipts.

How the Top of His Head Off.
MONROE, La., Oct. 4.—Andrew Mc-
Pherson was about and instantly killed
at the home of Mrs. Viola Dowdy,
whose 15-year-old daughter he had
ruined, as charged by Charles Dowdy,
brother of the girl. McPherson was
under bond for trial on the charge.
Friday morning he came to the house
of Mrs. Dowdy, carried her to the
'ol and attempted to force his way into
the house. Charles Dowdy then shot
him twice with a shotgun, one charge
striking his breast and the other the
top of his head. McPherson was
so badly wounded that he died.

The Situation in Guatemala.
New York, Oct. 4.—A special to the
Herald from Guatemala, via Galveston,
says: The situation in Guatemala
is practically unchanged. The rebels
are centered in Quetzaltenango, which
is now almost surrounded by 10,000
government troops, and a big battle
is expected there. With the exception
of the killing of Senor Don Apolario,
the big importer and exporter of
Central America, with offices in London,
Paris and New York, your correspondent
has heard of no executions. Rail-
road traffic throughout Guatemala is
practically uninterrupted.

Sagasta's Policy.
MADRID, Oct. 4.—Premier Sagasta
Sunday in an interview, gave out his
proposed policy toward Cuba. Media-
tion is not wanted. He will grant the
policy of the last two years will be
completely reversed. Foreign in-
terference will not be allowed. The
new premier hopes, however, that the
United States will be friendly.

Gov. Tanner Will Not Go to Nashville.
SPRINGFIELD, Ill., Oct. 4.—Gov. Tan-
ner announces that he will not go to
the Tennessee centennial on Illinois
day, October 9, with his military staff,
on account of yaws fever in the
South. The governor and friends leave
Springfield for the west on a ten days
pleasure trip.

Alleged Stage Robbers Arrested.
CHENEY, Wyo., Oct. 4.—Gus Smith
and George Reeb have been arrested
charged with stage robbery in Yellow-
stone Park. They were captured near
Montana and are being brought here
for trial.

Gen. Weyler Recalled.
LONDON, Oct. 4.—A special dispatch
received here from Madrid Saturday
says that Capt. Gen. Weyler has been
recalled from Cuba. His successor
is added, has not yet been officially an-
nounced.

No Improvement in the Situation at New Orleans.

The Board of Health Finds Great Difficulty in Its Work.

OF Stamping Out the Disease on Account of Failure to Report Cases of Cholera—Consequently the Patients Die Too Late for Prompt Medical Attention.

NEW ORLEANS, Oct. 4.—The fever situation did not improve Saturday. Not many new cases were reported, but there were reports of four deaths. One was the man Hickey, a patient at the yellow fever hospital. Another death was that of a child named Hester, at Philip and Chipmunk streets. A great crowd collected in the vicinity and extra details of guards had to be sent to clear the way. There are five cases in the neighborhood in one square. The board of health continues to find great difficulty in its work of stamping out the disease. The report sickness is becoming exasperatingly common.

The result is that patients are not receiving prompt medical attention, and are dying where they might be pulled through if doctors were immediately called in. The cases at the yellow fever hospital are increasing; there were 17 there Friday night and others were removed there yesterday morning. A number of people were released Friday and Saturday from the detention camp.

The Rigolets detention camp has been closed. There was no reason to maintain it because very few people were coming into it. THE QUEEN REGENT

Solitaries for Spain's Relations With the United States and to Avert the Loss of Cuba. NEW YORK, Oct. 4.—A special to the World from Madrid, Spain, by way of Barcelona, says: In all her conversations with the Spanish generals and the leaders of the political parties the queen regent has laid stress chiefly upon the question of Spain's relations with the United States and the best means of averting the loss of Cuba through prolongation of the war and consequent American intervention, thereby imperiling the stability of her son's throne, let alone playing into the hands of the republicans and Carlismos, who have been especially troublesome of late.

The queen also insisted strongly upon discussing whether her Spanish rule in the West Indies would not be jeopardized by a too extended grant of autonomy to the islands, the separatists and autonomists to prepare gradually and legally their evolution towards independence. She earnestly asked the statesmen if they really believed a liberal government would be strong enough to maintain the integrity of the Spanish empire, except extended home rule, involving a sacrifice of Spanish material interests in the colonies, materials and a heavy burden for the Spanish treasury, if saddled with a part of the Cuban debt.

The queen questioned whether the Spaniards would be able to restrain public opinion, the press and the opposition parties if he made concessions to the United States in the pressure of American diplomacy. The queen can not believe success would come so complete a reversal of the policy which has been followed for the last two years and a half.

It seems that some, if not all, of her personal advisers are of opinion to tell the queen regent that the alternative lies between a sincere trial of a new policy, including an understanding with the United States, and the greater question of a conflict with America, probably entailing the loss of the colonies.

The latter had been connected in some way with the Springfield rifle Co. Young Hayden was a well known and popular young man, a student in stage dancing. His companion is supposed to have been S. F. Sykes, of Baltimore.

About one-half of the grapes crop has already been converted into wine. The growers are now receiving an advance of from \$5 to \$10 a ton for their grapes, the understanding being that they are to receive one dollar for every cent per gallon the wine brings when sold.

PRAIRIE FIRES.

Death and Devastation Near Winnipeg, Manitoba.

Farm Houses, Implements, Crops and Live Stock Destroyed.

At About Railway Station an Elevator With 30,000 Bushels of Wheat, Stores, Warehouses and Other Buildings Destroyed. Many Farmers Lost Their All.

WINNIPEG, Manitoba, Oct. 4.—The prairie fire which raged all over the country Saturday, being fanned and driven by a gale of wind, died out during the night and Sunday morning's sun drenched upon a terrible scene of death and devastation. Farm houses, implements, crops and live stock were everywhere consumed and many farmers lost their all.

A most lamentable story comes from Beausart, a small town in the city where two women and five children named Moreski were burned to death. Fire came upon their house which was in the woods from two directions simultaneously and shut off all means of escape. Only a few charred remains were found Sunday morning.

There were many narrow escapes, carcasses of horses, cattle and sheep are all lying over the district and a number of families of foreigners are homeless and utterly destitute. At Iago, 70 miles west, the Canadian Pacific railway station and seven cars, the Dominion Grain Co.'s elevator, with 30,000 bushels of wheat, Lawrie's store, Higginbotham's, Link's and Backman's stables, a cold storage warehouse and Farmer Waldron's farm buildings and crops were totally destroyed. The little town was practically wiped out of existence. At Stony Mountain fire ran up to the Canadian Pacific railway platform, where, by desperate effort, progress was stayed. Much hay and grain was consumed in this district.

In the Lake Francis district, northwest of the city, there was also extensive destruction of crops. A young farmer named Markham was terribly burned while trying to save his property. At Oakland, on the Portage branch of the Northern Pacific railway, several thousand cords of wood and thousands of tons of hay were licked up. Just southeast of this city there was a large hay marsh and fire was driven over this, consuming everything in its course. Nearly every farmer lost his hay and many also lost their crops and implements. There were large bands of horses and cattle pasturing on the marsh and during the fire the horses and cattle were scattered all over the prairie. Jack rabbits and also deer were killed in this district. Many prairie chickens were also destroyed. The police who had been called out for some hours, as it was feared that the fire would come into the suburbs, were many miles away from the city. A timely change of the wind averted this impending danger.

CLEVELAND, O., Oct. 4.—Seventy-six contestants started in the big Cleveland-Pittsburgh road race at 7:30 o'clock Sunday morning. Smith, of Cleveland; and Chief Constable A. Boyle, of the Pennsylvania division, L. A. W., who was official referee.

The riders were composed of representatives of teams from Pittsburgh, Cleveland, Buffalo, Akron and Collingwood. The total distance to be ridden is 180 miles. CHAGIN FALLS, O., Oct. 4.—James A. Branding Sails by Electricity. PASO ARTO, Cal. Oct. 4.—The members of the Stanford party engaged in branding sails by electricity on Prybil Islands have arrived on the steamer. They claim that the experiment of branding fur seals was successful. Besides the work of taking the seal coats and building a trestle across the salt lagoon to prevent the redrawing of bachelor seals, a number of bird skins, skeletons, and bones were collected. The party consisted of Greely, W. Snodgrass, W. Edwards, Bristow and Adams, 1900, and Instructor Farmer.

THRASHING OLD STRAW.

Silver Question Is Again in Ohio, Iowa and Kentucky.

The farmers of Ohio, Iowa and Kentucky will be called upon this fall to vote again upon the silver question, the same old question which they voted on last fall, and which they no doubt thought at that time they were settling once for all. The silverites are reviving this issue in the hope of gaining for their party an important vote which will enable it to carry the congressional elections in 1908 and to secure the presidency in 1909. There is nothing new in the question as it is now presented. It was fully discussed last year, but all the old arguments will be brought to the front once more.

It will be well for the farming class and the other voters of these states to study the question afresh and ask the politicians what good the free coinage of silver can do us or our interests. They will be told first that times are still hard in the country and that the cause of them is the want of sufficient money—that more money is what is needed for general prosperity.

But the education of the last campaign ought to have made every man and woman understand clearly that the coinage of more legal tender silver dollars will not increase the circulating medium of the country, for the reason that the history of the world shows clearly that whenever a nation has attempted to make use of two kinds of money, different in intrinsic or commercial value, the result has always been that the better kind of money disappeared from circulation, leaving the poorer kind to occupy the field. If it is provided by law that 412.5 grains of silver shall be coined free without limit and form a legal tender, and that the value of the ounce of silver is to be the same as the ounce of gold, then the result is that the ounce of silver is worth less than the ounce of gold, and the demand for the silver disappears from circulation.

Immediately after the passage of the silver law, the value of the ounce of silver is to be the same as the ounce of gold, and the demand for the silver disappears from circulation. This is the result of the law, and the result of the law is that the ounce of silver is worth less than the ounce of gold, and the demand for the silver disappears from circulation.

There will be a great deal of the old story about the silver question in this year. Now, the fact is that the United States is already the greatest bimetallic country in the world except France. That is to say, the maintenance of the gold standard of values, we use as money in this country more silver than is used in any other civilized country in the world except France.

The silver men do not want bimetalism. Their scheme does not look to that end. The demand for gold money is not a demand for silver money. This they expect to secure by forcing this country down to a silver basis, so that the silver men can have a monopoly of the nation, using silver as our only metallic money. This is the condition of Mexico to-day, and it is the condition of the silver men in the United States—Sound Money.

Why Gold Bugs Rejoice. One of the silver bugs asks plaintively why the heartless goldbugs should not be allowed to have their own nation, but a monetometallic nation, using silver as our only metallic money. This is the condition of Mexico to-day, and it is the condition of the silver men in the United States—Sound Money.

The cost of producing silver has been declining and E. J. McGee, in his selling price is responsive to this and is not dissatisfied to the miner and is highly favorable to all persons who have occasion to use silver in the arts, and to this extent the decline is a public benefit.—N. Y. Journal of Commerce.

Will Silver Reach the Ash Barrel? St. Louis, Oct. 4.—The silver men do not want bimetalism. Their scheme does not look to that end. The demand for gold money is not a demand for silver money.
